Work Experience

GearGames **August 2026 - November 2026**
Server Engineer Intern
- Studied the company's **Java/Akka** server codebase and worked on resource initialization and login flows.
- Developed **static and daily shop** purchase flows using in-game **gems**.
- Implemented **Battle Pass** mission progression toward milestones with **Free and Premium** reward tracks.
- Worked with **Protocol Buffers, DynamoDB, and Redisson** in the game-server stack.

AI Innovation Challenge **July 2026**
Team Lead (3-person team) *Smart Government Track*
- Led a team of **3 developers** to build **Civic Path**, an AI assistant for birth registration procedures
- Built the web app with **FastAPI** and **Next.js**; shipped a live demo and source code

Codex Community Hackathon **June 2026**
Team Lead (3rd Place) *Hanoi, Vietnam*
- Led a team of **3 developers** to build **GuideLens AI**, earning **3rd Place** in the Codex Community Hackathon
- Built **FastAPI** endpoints and connected **OpenAI Vision** with **Pillow** for screenshot-based UI guidance

PathTech JSC **January 2026 - April 2026**
Full Stack Developer Intern *Hanoi, Vietnam*
- Developed backend services using **NestJS, PostgreSQL, and Redis** to support apartment reservations and real-time bidding workflows
- Implemented **JWT authentication** and **role-based authorization** to secure protected **REST APIs**
- Implemented **Stripe Payment Intents** and **webhook handlers** to automate secure online payment processing

FreeCode School **July 2024 - December 2024**
Software Engineer Intern *Hanoi, Vietnam*
- Built **CRUD RESTful APIs** with **Spring Boot, Spring MVC, and Spring Data JPA**
- Added **Bean Validation**, **global exception handling**, and standardized **JSON responses**

Projects

HUMG Regulation Search | *Live Demo* **Java | Spring Boot | PostgreSQL | Next.js | Docker**
- Built and deployed a Java/Spring Boot regulation search platform serving **40+ initial users**
- Implemented **REST APIs**, JWT, Google OAuth2, an admin dashboard, and Docker deployment

Identity Services | *Source Code* **Java | Spring Boot | MySQL | Spring Security | JWT**
- Developed a secure authentication service with JWT, refresh tokens, logout, and role-based authorization
- Applied Spring Security, Spring Data JPA, BCrypt, Bean Validation, MapStruct, and global exception handling

Technical Skills

Languages: Java, SQL, Golang, Python, JavaScript
Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, Akka
Databases: MySQL, PostgreSQL, MongoDB, Redis, DynamoDB
Tools: Git, GitHub, Maven, Docker, Postman, Swagger, Protocol Buffers, Redisson

Certificates

CS50 Certificate | **SQL (Advanced) Certificate** | **Java (Basic) Certificate**

Education

Hanoi University of Mining and Geology **Expected Graduation: January 2027**
Bachelor of Information Technology Engineering *Hanoi, Vietnam*
- **Merit-based Academic Scholarship** (1 semester) - Semester GPA: **3.67/4.0**
